

Saturn Oil & Gas Inc. is a growing Canadian energy company focused on generating positive shareholder returns through the continued responsible development of high-quality, light oil weighted assets, supported by an acquisition strategy that targets highly accretive, complementary opportunities. Saturn has assembled an attractive portfolio of free-cash flowing, low-decline operated assets in Central Alberta, Southeastern Saskatchewan and West Central Saskatchewan that provide a deep inventory of long-term economic drilling opportunities across multiple zones. With an unwavering commitment to building an ESG-focused culture, Saturn's goal is to increase reserves, production and cash flows at an attractive return on invested capital. Saturn integrates the protection of the environment, ethical and fair treatment of our employees and stakeholders, and strives to be at the forefront of what it means to be a good corporate citizen.

Saturn has an opportunity for a full time **Operator** based in the **Kindersley, SK** area. Reporting to the Foreman, some specific duties, and responsibilities of the Operator include, but are not limited to:

- Monitor and operate facilities and field equipment in an efficient and safe manor to optimize production while minimizing risk of downtime
- Conduct daily well and equipment inspections and arrange for mechanics to implement maintenance and repairs
- Record and report various statistics related to oil production and equipment maintenance
- Responsible for production tracking, fuel flare, and vent logs
- Identify deficiencies and recommend corrections to existing procedures to ensure the assigned field meets performance standards
- Participate and follow compliance initiatives
- Communicate and collaborate with other departments to make improvements to processes and maximize productivity
- Ensure operations are carried out in a cost-effective manner
- Support and initiate safe work practices, following all Saturn policies and procedures
- Contribute to the team achievement of meeting business, environmental, health and safety targets.

Candidates for this position will possess the following qualifications and competencies:

- High school diploma or equivalent
- Preference for 2+ years of operating experience
- Valid H 2 S and First Aid certifications along with a valid Class 5 Driver's License
- Self-starter and able to work independently with minimal supervision, time management and organizational effectiveness are critical to this position
- Positive attitude and a sense of teamwork
- Able to identify opportunities to improve operations production, activities, processes and procedures
- A disciplined work ethic, self-motivated, positive attitude and strong desire to contribute is essential
- Good working knowledge of all Microsoft Office programs
- Must be able to learn, adhere and work with all Saturn based software programs

- Will be required to work an 8 day on, 6 day off shift
- Must be willing to work overtime when required
- Must take part in on-call rotation.
